• Scheme of the work process •

SoEnergy!

Collects used textiles, sorts and processes it according to the TAUKO design method

Sews a staff uniform from recycled textiles

Produces bags for separate collection of dry clean waste in households and offices

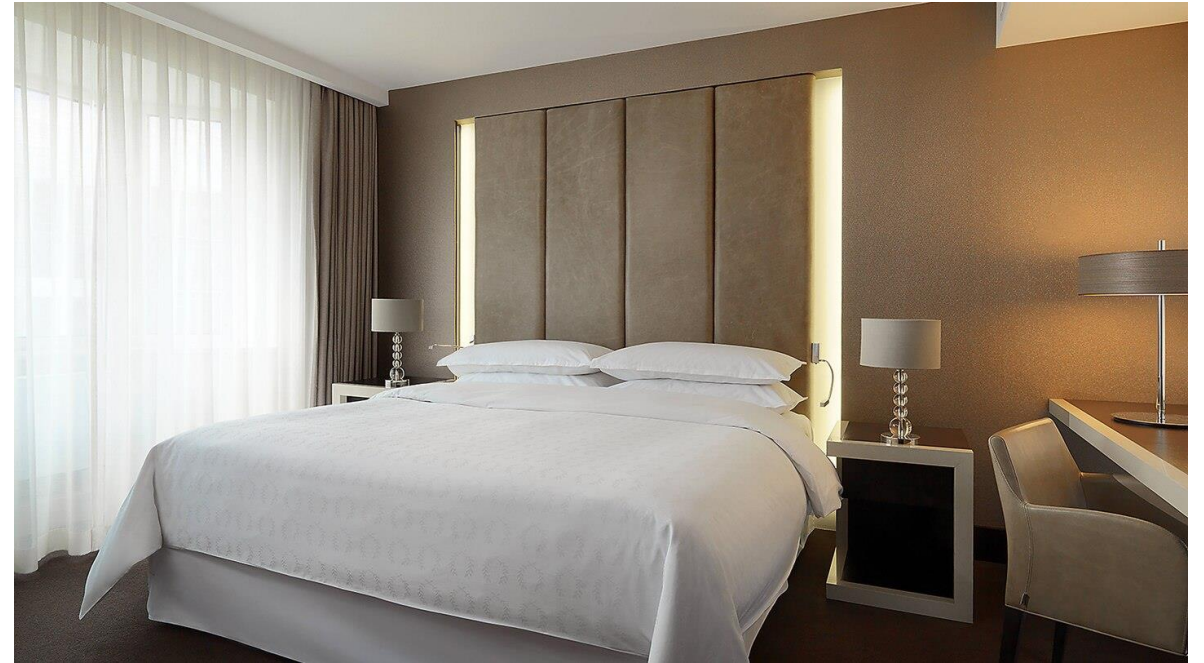

Produces reflectors for corporate orders - passive pedestrian protection

Gathers like-minded people and partners to create a true closed-loop cyclical economy

Excellent hotel textiles

- Comfortable rooms
- Elegant interiors of restaurants
- Banquet and business premises
- Spa facilities and swimming pools
- Staff clothing

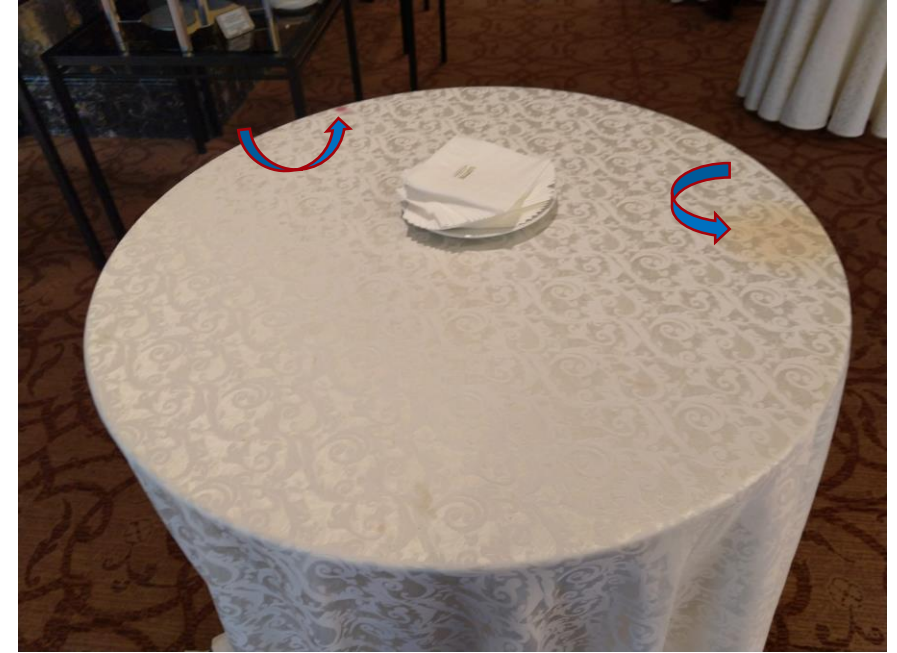

• Post-consumer textiles •

- work clothes
- tablecloths and napkins
- the uppers
- Bedding - rental

Within a few days, Hotel Sokos Bridge collected four large baskets of disposable textiles

One day in the life of a tablecloth - National Sustainable Development Forum, Lotte Hotel, Moscow, May 2019

• Downcycling •

Rags

Термовойлок - нетканое полотно, полученное путем скрепления сформированного волокнистого холста из смеси регенерированного и бикомпонентного волокон иглопрокалыванием и дальнейшей термообработке на каландре (СТО 21506643.003-2014).

Termofelt

Ватин иглопробивной полушерстяной ВК, СТО 21506643.003-2016 - это нетканый материал из смеси регенерированных натуральных (шерсть и хлопок) и синтетических волокон.

Wading\padding

Upcycling!

SoEnergy!

Work uniforms suiting the demanding taste of millennials and generation Z

The future starts right now
